

International Workers' Memorial Day **28 April 2023**

Remember The Dead: Fight For The Living

An organised workplace is a safer workplace

Organise

Usdaw Health and Safety Reps are provided with the tools, support, and training that they need for the work.

Inspect

Usdaw Health and Safety Reps can use their legal functions to inspect the workplace, investigate accidents, and consult with the workers they represent.

Protect

Usdaw can use its bargaining strength to make sure that workplace health and safety policies are functioning properly. Wider political campaigns can also be utilised to make sure that workers are heard – Freedom From Fear and a New Deal for Workers.

Strong laws – Strong enforcement – Strong unions
