

Breaking Down Barriers

Usdaw's education and skills programme for Black members is now entering its second year.

We must continue to break down the barriers that stand in the way of Black members getting involved in the Union.

Are you, or do you know of, a Black member who has completed their basic Usdaw rep, H&S rep or ULR training, and would like to broaden their skills and get more active in the Union?

*By Black we mean anyone who is at risk of discrimination or racism because of the colour of their skin, including members of mixed heritage.
