

Usdaw Supports World Aids Day

1 December 2021

 **USDAW**

**Campaigning
For Equality**

Globally, there are an estimated
38 million people living with HIV

Advances in treatment mean that people with HIV can live long, active and healthy lives but stigma still negatively affects the health and well-being of far too many people living with HIV.

People living with HIV have important rights at work that protect them from harassment and less favourable treatment.

Find out more by visiting www.usdaw.org.uk/HIV
